Internet Acceptable Use: Filtering

Filtering should only be viewed as one of a number of techniques used to manage student's access to the Internet and encourage acceptable usage. It should not be viewed as a foolproof approach to preventing access to inappropriate material. Filtering should be used in conjunction with:

- Educating students to be "Net-smart"
- Using recognized Internet gateways as a searching tool and/or homepage for students, in order to facilitate access to appropriate material;
- Using "Acceptable Use Agreements;"
- Using behavior management practices for which Internet access privileges can be earned or lost; and
- Appropriate supervision, either in person and/or electronically.

The placement of filters on District computers/computer systems is viewed as an exercise of the Board's ability to determine educational suitability of all material used in the schools.

Filters may be utilized with District schools to (1) block pre-selected sites, (2) block by word, (3) block entire categories like chat and newsgroups, and (4) through a pre-selected list of approved sites.

The Superintendent of Schools is directed to establish guidelines and procedures for responsible use of computers, computer systems, software, electronic access privileges, and networks provided by the Board of Education.

(cf. 6141.321 - Acceptable Use of the Internet)

(cf. 6141.322 - Web Sites/Pages)
