Threats or Acts of Violence

The Board of Education recognizes that threats or acts of violence have become a major problem in schools throughout the country among young people and, consequently, is a concern to this school system and the community it serves. The Board recognizes that threats or acts of violence are complex and that, while the school may recognize potentially at risk youth, it cannot make clinical assessment of risk and provide in-depth counseling, but must refer the youth to an appropriate place for such assessment and counseling.

Therefore, any school employee who may have knowledge of a threat or act of violence must take the proper steps to report this information to the School Principal who will, in turn, notify the appropriate school officials, the student's family and appropriate resource services.
