

Students

Student Health Services

School District Medical Advisor

The Board of Education shall appoint a school district medical advisor and appropriate medical support service personnel including nurses.

School health efforts shall be directed toward detection and prevention of health problems and to emergency treatment, including the following student health services:

1. Appraising the health status of student and school personnel;
2. Counseling students, parents, and others concerning the findings of health examination;
3. Encouraging correction of defects;
4. Helping prevent and control disease;
5. Providing emergency care for student injury and sudden illness;
6. Maintaining school health records.

Health Records

There shall be a health record for each student enrolled in the school district which will be maintained in the school nurse's room. For the purposes of confidentiality, records will be treated in the same manner as the student's cumulative academic record.

Student health records are covered by the Family Educational Rights and Privacy Act (FERPA) and are exempt from the Health Insurance Portability Accountability Act (HIPAA) privacy rule. However, it is recognized that obtaining medical information from health care providers will require schools to have proper authorization and to inform parents that such information once released by health care providers is no longer protected under HIPAA but is covered under FERPA.

Students

Student Health Services (continued)

Regular Health Assessments

Prior to enrollment in kindergarten, each child shall have a health assessment by one of the following medical personnel of the parents or guardians choosing to ascertain whether the student has any physical disability or other health problem tending to prevent him or her from receiving the full benefit of school work and to ascertain whether such school work should be modified in order to prevent injury to the student or to secure for the student a suitable program of education:

1. a legally qualified physician;
2. an advanced practice registered nurse;
3. a registered nurse;
4. a physician's assistant.

Such health assessment shall include:

1. Physical examination which shall include hematocrit or hemoglobin tests, height, weight, and blood pressure;
2. Updating of immunizations required under 10-204 and 10-204a;
3. Vision, hearing, postural, and gross dental screening;
4. Any other information including a health history as the physician believes to be necessary and appropriate.

Students

Student Health Services (continued)

Health assessments shall also be required in grades 6 or 7 and in grade 10 or 11 by a legally qualified physician of each student's parents or guardians own choosing, or by the school medical advisor, or the advisor's designee, to ascertain whether a student has any physical disability or other health problem. Such health assessments shall include:

1. Physical examination which shall include hematocrit or hemoglobin tests, height, weight, and blood pressure;
2. Updating of immunizations required under 10-204 and 10-204a;
3. Vision, hearing, postural, and gross dental screening;
4. If required by the school district medical advisor, testing for tuberculosis and sickle cell anemia or Cooley's Anemia;
5. Any other information including a health history as the physician believes to be necessary and appropriate.

A child will not be allowed, as the case may be, to begin or continue in district schools unless health assessments are performed as required. Students transferring into the district must provide evidence of required Connecticut vaccinations, immunizations, and health assessments at enrollment and prior to school attendance.

Health assessment results and recommendations signed by the examining physician or authorized medical personnel shall be recorded on forms provided by the Connecticut State Board of Education and kept on file in the school the student attends. Upon written authorization from the student's parent or guardian, original cumulative health records shall be sent to the chief administrative officer of the school district to which such student moves and a true copy of the student's cumulative health records maintained with the student's academic records. The Superintendent of Schools, or designee, shall notify parents of any health-related problems detected in health assessments and shall make reasonable efforts to assure that further testing and treatment is provided, including advice on obtaining such required testing or treatment.

Students who are in violation of Board requirements for health assessments and immunizations will be excluded from school after appropriate parental notice and warning.

Students

Student Health Services (continued)

Vision Screening

All students in grades K-6, and grade 9 will be screened using a Snellen chart, or equivalent screening, by the school nurse or school health aide. Additional vision screening will also be conducted in response to appropriate requests from parents/guardians or professionals working with the student in question. Results will be recorded on the cumulative health record and the school nurse in each building shall cause a written notice to be given to the parent or guardian of each student found to have any defect of vision or disease of the eyes, with a brief statement describing such defect or disease.

As necessary, special educational provisions shall be made for students with handicapping conditions.

Hearing Screening

All students will be screened for possible hearing impairments in grades K-3, grade 5, and grade 8. Additional audiometric screening will be conducted in response to appropriate requests from parents/guardians or professionals working with the student. Results will be recorded on the cumulative health record on forms supplied by the Connecticut State Board of Education, and the Superintendent shall cause a written notice to be given to the parent or guardian of each student found to have any defect of vision or disease of the eyes, with a brief statement describing such defect or disease.

As necessary, special educational provisions shall be made for students with handicapping conditions.

Postural Screening

School nurses will screen all students in grades 5 through 9 inclusive for scoliosis or other postural problems. Additional postural screening will also be conducted in response to appropriate requests from parents/guardians or professionals working with the student. Results will be recorded on the cumulative health record and the school nurse shall cause a written notice to be given to the parent or guardian of each student found to have any postural defect of problem, with a brief statement describing such defect or disease.

As necessary, special educational provisions shall be made for students with handicapping conditions.

Students

Student Health Services (continued)

Tuberculin Testing

All new students, including preschool students, will be required to have at least one test for tuberculosis prior to entry in district schools and as required by the school Medical Advisor.

Immunizations/Vaccinations

No student will be allowed to enroll in any program operated as part of the district schools without adequate immunization against the following diseases:

1. Measles
2. Rubella
3. Poliomyelitis
4. Diphtheria
5. Tetanus
6. Pertussis
7. Mumps
8. Hemophilus influenza type B
9. Any other vaccine required by Section 19a-7f of Connecticut General Statutes.
10. Hepatitis B
11. Varicella (chickenpox)

Before entering the seventh grade, each child shall show proof of having received 2 doses of measles-containing vaccine or serologic evidence of infection with measles.

Students entering the eighth grade must show proof of 3 doses of Hepatitis B vaccine or serologic evidence of infection.

Students

Student Health Services (continued)

Students shall be exempt from the appropriate provisions of this policy when:

1. they present a certificate from a physician or local health agency stating that initial immunizations have been given and additional immunizations are in process under guidelines and schedules specified by the Commissioner of Health Services; or
2. they present a certificate from a physician stating that in the opinion of such physician, immunization is medically contraindicated because of the physical condition of such child; or
3. they present a statement from their parents or guardians that such immunization would be contrary to the religious beliefs of such child; or
4. in the case of measles, mumps or rubella, present a certificate from a physician or from the Director of Health in such child's present or previous town of residence, stating that the child has had a confirmed case of such disease; or
5. in the case of hemophilus influenza type B has passed his or her fifth birthday; or
6. in the case of pertussis, has passed his or her sixth birthday.

The school nurse will report to the local Director of Health any occurrence of State of Connecticut defined reportable communicable diseases.

Health Assessments/Interscholastic Sports Programs

Any student participating in an interscholastic sports program must have a health assessment, within one year prior to the first training session for the sport or sports. Each participant in a sport program must complete a health questionnaire before participating in each sport.

Parents are expected to use the services of their private physician. Health assessment results shall be recorded on forms provided by the Connecticut State Board of Education, signed by the examining physician, filed in the cumulative health folder, and maintained up to date by the school nurse.

Coaches and physical education staff shall insure appropriate monitoring of an athlete's physical condition.

Students

Student Health Services (continued)

Student Medical Care at School

Schools personnel are responsible for the immediate care necessary for a student whose sickness or injury occurs on the school premises during school hours or in school-sponsored and supervised activities according to nursing protocol.

Schools shall maintain files of emergency information cards for each student. If a child's injury requires immediate care, the parent or guardian will be called by telephone by the nurse, the building principal, or other personnel designated by the principal, and advised of the student's condition. When immediate medical or dental attention is indicated, and when parents or guardians cannot be reached, the student will be transported to the nearest hospital unless otherwise indicated on the student's Emergency Information card. In this event, the family physician/dentist and school district medical advisor will be notified of school district actions.
